

Municipal Class Environmental Assessment Stormwater Management Master Plan – Phase II NOTICE OF PUBLIC INFORMATION CENTRE

March 26th, 2025

The Town of Collingwood has initiated the second phase (Phase II) of the Stormwater Management (SWM) Master Plan. The Town completed the initial background information collection phase of the SWM Master Plan in January 2022. During Phase I, a comprehensive model was created to assess the existing conditions of Collingwood's stormwater management system. Phase II of the SWM Master Plan will identify alternative solutions to address flooding issues within Collingwood and establish the preferred solution to mitigate these flood issues effectively.

The Phase II Townwide SWM Master Plan for Collingwood is being conducted as a Municipal Class Environmental Assessment (Class EA) process; a Schedule 'B' activity as defined by the Municipal Engineers Association Class EA documentation. The Class EA process identifies and confirms the Project-related problems and opportunities; develops alternative solutions; assesses the potential environmental, cultural, social, and economic impacts of the problems, opportunities, and solutions; recommends preferred projects; and, suggests associated monitoring and mitigation measures.

The purpose of PIC#2 is to update the public on the project, share background information, and present a short list of potential solutions, including preliminary preferred solutions, for their input before further evaluation. The PIC#2 will consist of a presentation (to be held at 3:00 pm & 4:30 pm) followed by a question-and-answer period. Representatives from the project team will be available to answer questions regarding the presented materials throughout the PIC duration.

Information will be collected following the Freedom of Information and Protection of Privacy Act ('FIPPA'). With the exception of personal information, all comments will become part of the public record.

Notice of future public contact for this study and additional information will be posted on the Engage Collingwood website (<https://engage.collingwood.ca/>) to inform the public of the Class EA's progress.

PUBLIC INFORMATION CENTRE:

**Collingwood Public Library
Third Floor – Community Room B
55 Ste Marie St
Collingwood, ON, L9Y 0W6**

**Wednesday, March 26th, 2025
3:00 PM to 6:00 PM**

If you are unable to attend or require further information, please contact or provide any comments in writing to:
