

Raymond A. Barker Water Treatment Plant Expansion

Contract 2 – WTP Expansion FIN2023-001T

Engage Collingwood Update #3 February 2025

Progress Photos

Shoreline reconstruction work complete in late 2024.

Replacement of Sanitary Main on Raglan Street.

Project progress

A drilled pile is being prepared for placement of concrete and the drill rig is preparing to start to drill for another pile.

Connection to Industrial Watermain that will continue to provide untreated water to local industries for use in process and fire protection.

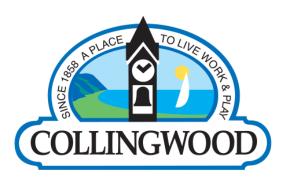

Progress Since Last Update

- Sanitary sewer work on Raglan Street is now complete.
- Drilling for caisson piles continues for excavation and foundation work.
- Watermain installation for the temporary Industrial Pump Station is underway.
- Equipment and materials are being delivered to site.
- The Public are reminded to please be mindful this is an active construction site with equipment entering and leaving regularly.
